

BURN C

Fire blanket

This blanket can be used as protection for rescue workers entering or leaving a fire area. It can also be used to extinguish flames on a burn victim and, if necessary, be used as a large dressing, providing instant pain relief and beginning the healing process while victims are being transported to emergency care units.

Specific Characteristics

- Sterile trauma blanket
- Shoulder strap make it easy to carry
- Suitable for: extinguish flame, large dressing, entry or exit from fire
- No loose fibers
- Relieves pain
- Cools and provides the necessary water supply to the skin
- Non-adherent and non-toxic
