

T-5

Medication PVC black bag

To work well is also to work with style. Bags that are not only beautiful to look at, but above all spacious and perfectly efficient. Perfect for professional use and designed to give an image of quality to your work, as well as to ensure an excellent organisation. For quick location of the instruments contained, each bag has a colour code for fast identification of the set. The collection of T Series bags has been created in order to render the internal parts of the backpacks modular, and to exploit rationally the space available. They are made in tear-proof, transparent PVC nylon with practical zips. For quick location of the instruments contained, each bag has a colour code for fast identification of the set.
