

# HOME JET 800 D

Portable suction device

Space-saving suction device to be used to remove fluids from the airway or respiratory support system. The device creates a negative pressure that draws fluids through disposable tubing that is connected to the collection container.

#### Specific features

- The direct connection between canister and suction unit allow to maintain higher flow rate and decreases the time needed to reach the desired vacuum
- Protective shell able to protect the device from bumps and falls
- The battery can be replaced quickly and easily
- Low weight and size
- Wide base to increase stability
- Easy and intuitive commands
- Easy view of the vacuum set thanks to the led indicators

#### Standard equipment

- Disposable patient tube 1,8 m
- Shoulder strap for easy transport
- 12V cigarette lighter cable

#### Optional accessories/Consumables

- |          |                               |
|----------|-------------------------------|
| SC75012E | Lateral bags for Jet          |
| RISC005E | Antibacterial filter          |
| SC73016E | Sterile suction catheter 1,8m |
| SC73032E | 800ml disposable canister     |

#### Compliant with

ISO 10079-1

#### Technical data

Dimensions	200x225x285 mm
Weight	2,4 ± 0,1kg
Vacuum range	From 50 to 550mmHg
Flow (free flow)	32 l/min
Noise level	70db
Electrical connection requirements	12VDC 33W max
Battery	12V DC Ni-MH
Battery operating time	Max 45-60min at free flow
Operating time	30 min. ON , 30 min. OFF
Battery recharging time	5 hours
ISO Classification	High vacuum/High flow
IP protection	IP12
Canister capacity	800 ml
Patient tube	1,8 m

Med.Device CE marked according to Dir. 93/42/CEE
